SOFTWARE SKILLS

SUMMARY

I'm a 3D Animator who is currently an Animation Lecturer teaching 3D animation to First Year students at De Montfort University. I have recently graduated with two degrees: a Merit in Master of Arts (MA) in Animation and a First Class Honours in Batchelor of Arts (BA) in Animation. I love bringing characters to life through the design, 3D modelling and animation processes. I have created various animated shorts during my time at University and I've since produced more upon finishing higher education. I'm always eager to learn new skills and expand my knowledge. I've produced work in a group and on my own, so I'm confident working with others and independently.
